

WE KNOW IT WORKFLOWS NEED TO BE MODERNIZED. USING TRUE NO CODE AUTOMATION AND INTEGRATION, ODYSSEY PROVIDES ORGANIZATIONS WITH THE ABILITY TO CONTINUOUSLY IMPROVE, CHANGE, OR BUILD UPON THEIR CURRENT PRACTICES AND PROCESSES. THIS FLEXIBILITY HELPS WITH NAVIGATING TECHNOLOGICAL SHIFTS AS THEY COME, WITHOUT ALL OF THE BURDEN FALLING ON IT DEPARTMENTS.

CHALLENGES IT DEPARTMENTS FACE

**Unstable
point-to-point
integrations**

**Keeping up with
ever-changing
business needs**

**Making silos of
application
data accessible**

SIMPLIFY IT WITH ODYSSEY

STRENGTHEN INTEGRATIONS

With less potential points of failure, no code integrations remove complexity and strengthen your enterprise. Cleaner, more dependable integrations open up communication pathways to connect both systems and devices faster, while supporting future growth.

AUTOMATE WITH EASE

Powerful automation capabilities streamline IT processes and eliminate manual tasks to enhance efficiency. Patch and Change Management workflows are simplified and application builds are accelerated for quicker time-to-market. Both reducing disruptions and saving resources to focus on other goals.

FREE SILOED DATA

Odyssey acts as the bridge to connect and enhance your current applications, making data accessible to business users when they need it most. These connections effortlessly extract information from multiple data sources without a single line of coding needed from the technical team.
