

WE KNOW HR PROCESSES NEED TO BE TRANSFORMED. USING TRUE NO CODE AUTOMATION AND INTEGRATION, ODYSSEY REMOVES MANUAL FUNCTIONS FROM HR WORKFLOWS TO SAVE TIME AND LOWER RISKS. WITH AUTOMATION, YOUR TEAM CAN FOCUS ON EMPLOYEE RELATIONS AND TALENT MANAGEMENT WITHOUT DEALING WITH REPETITIVE DATA ENTRY, CONFUSION FROM DISPARATE PLATFORMS OR COMPLIANCE ISSUES.

SIMPLIFY HR WITH ODYSSEY

CONNECT SYSTEMS & APPS

Without proper integration, platform data is left segmented. This leads to swivel-chairing and manual data entry into other systems. Integrating third-party apps with Odyssey streamlines the transfer of HR data automatically, creating quick and reliable connections to various systems and apps.

MODERNIZE HR WORKFLOWS

HR processes are often reliant on paper collection and manual data entry into systems. Odyssey automation provides beneficial time-savings for managing timesheets, PTO requests, performance appraisals, job postings and onboarding – greatly increasing productivity for all.

INCREASE DATA SECURITY

The functions of HR produce a ton of sensitive data to protect. Automating workflows reduces the risks associated with manual errors. Odyssey's built-in security provides automated back-up of data and increased compliance with audit trails and custom user access levels.
